Dear IWGA member federations,

The World Games introduces [a new media hub](#), where you can easily find videos, photos and members in one place. At the same time, the new media hub replaces The World Games Channel, and all the videos can now be found through it on [YouTube](#). You can also find current and previous Athletes of the Month at a glance.

The World Games Channel was created at a time when our member federations needed a platform where to showcase their sports and live events. Fortunately, most of you now have your own platforms, and many, like us, also have started cooperation with the Olympic Channel. We felt that this was the right time to modernise our channels, start to use YouTube more proactively and concentrate our videos there.

Besides YouTube, The World Games social media video series such as [Stay at home](#), [Train at home](#), can be found on [Facebook](#) and [Instagram](#).

THE IOC, THE WORLD HEALTH ORGANIZATION AND THE UNITED NATIONS JOIN FORCES TO FIGHT THE COVID-19 PANDEMIC – WITH ATHLETES HELPING TO SPREAD THE WORD

In the coming weeks, Olympic athletes will help deliver important public health information, inspiring people to adopt or continue behaviours that will curtail the pandemic and provide resources that promote physical and mental health.

Using the theme “**Healthy Together**”, partners and athletes will spotlight the collective effort and global collaboration needed to reduce the spread and impact of COVID-19.

IOC President Thomas Bach said: “Sport can save lives. We have seen over the last few months just how important sport and physical activity are for health and well-being. And working together with WHO and the United Nations we can take another step together. Olympic athletes will share the information and best practice that the world needs now.”

Over the past six months, the COVID-19 pandemic has impacted every corner of the globe and every aspect of our lives, bringing with it uncertainty, fears and challenges that require endurance and perseverance to overcome. The world is looking for global institutions to work together and for leaders to deliver reliable, credible information from sources they trust. Olympic athletes can be the trusted messengers for this information.

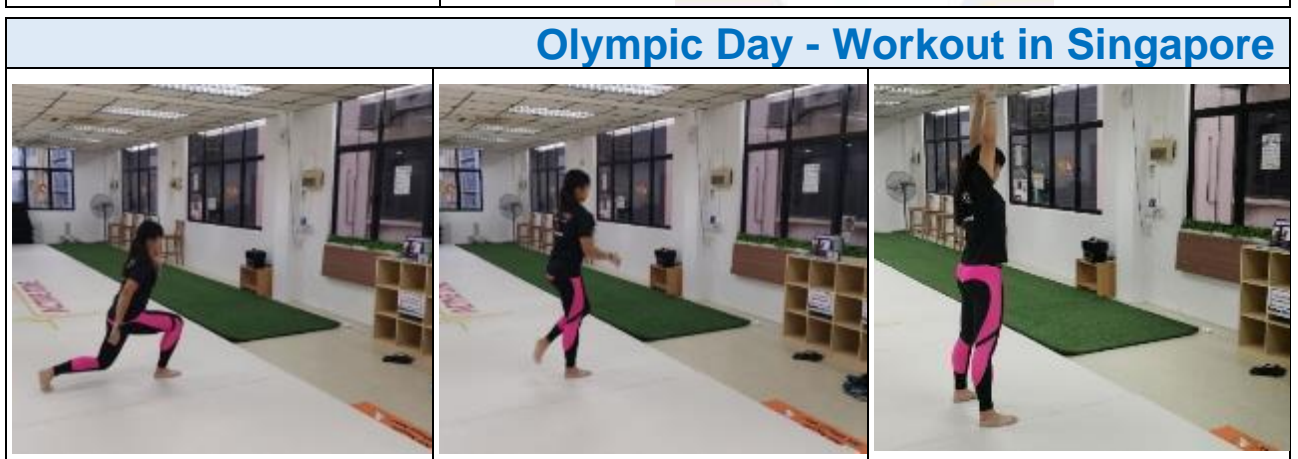

Tedros Adhanom, Director-General of the World Health Organization, commented: “We are pleased to partner with the International Olympic Committee to spread important health messages that will save lives. Olympians will help us advocate for healthier populations to ensure that people are as resilient as our health systems must be to fight COVID-19.”

António Guterres, Secretary-General of the United Nations, added: “During this time of unprecedented challenges and change -- from the COVID-19 pandemic to the ongoing struggle for racial and social justice and the climate crisis -- there has never been a greater need for global solidarity and hope. The Olympic Movement and its athletes have always brought out the best in humanity, and the United Nations is pleased to work with the International Olympic Committee and the World Health Organization in calling on people everywhere to unite and be #HEALTHYTogether.”

As the pandemic evolves and countries around the world face varying stages of outbreak and recovery, the global partnership will act locally, through the voices of Olympic athletes – voices that symbolise perseverance, dedication and endurance – qualities all individuals need during this public health challenge. The three organisations will work with local health authorities to share public health guidance and resources that inform and empower individuals to take appropriate actions and precautions. The World Health Organization will work with athletes to bring the important information to populations where they live and where conditions may vary through digital platforms.

As COVID-19 forces changes to our daily routines and lives – from how we interact with others to how we move and exercise – we need to pay attention to our own mental and physical health and help others who may need extra support. By working together, the aim of the partnership on Olympic Day and every day is to stay Healthy Together.

<p>Focus points:</p> <ol style="list-style-type: none"> To advertise as much as possible in our media all the events which will be held around the world after lock-down is finished. To use parts of President's Newsletter about COVID-19 Hazards and publish it from time to time in our Social Media (websites) if available at our athletes, coaches and officials during these difficult times. To prepare in advance the list of Media Officers which will be present at the main Continental and World Championships 2020, and also plan media coverage of WAKO activities in 2021, present it to the Board and ask for covering travel and accommodation expenses. 	<p>Progress:</p> <ol style="list-style-type: none"> Due to the different order of the opening in different countries, it was challenging to collect the information about the future activities of WAKO members. It was very uncertain for organizers in schools in the competition when the government prohibits measures on daily basis. President's Newsletter about WAKO has gained unexpected popularity among WAKO members. James Diaz has got many emails from people from WAKO whom they were thanking for the Newsletter. List of the Media Officers is still under preparation due to the uncertainty of holding the World Championships, but will be provided as time. 	<p>Future focus:</p> <ol style="list-style-type: none"> Using the power of social media for gaining more WAKO kickboxing fans. Continue to have campaigns (as we had WAKO Challenge) to educate people about kickboxing. Start with making short quizzes with questions about refereeing and kickboxing overall. Education through fun. Analyze design of WAKO website in the purpose of improving design, updating and simplifying navigation (to make it more functional). Open the discussion about adapting the WAKO Book of standards, where we will have all graphic solutions (colorful of one place). The purpose is to have standardized all logos, letters, fonts, colors etc. which will be used for all kind of printing materials. It is necessary to protect our brand with keeping our graphics uniform the same for various purposes (referee's shirts, hats and slow flex uniforms, desk calendar, website etc.). Continue to cooperate with relevant organizations (IAAF, IFC, IFS) and to keep acting in accordance with their directions. Start analyzing the activities of social media of other sport organizations which are members of CNSFWS, to continue the steps of our plan. 	<p>Importance:</p> <ol style="list-style-type: none"> More fanbase popularity. WAKO website has several improvements in layout. Book of standards is ultimate solution for one brand. Cooperation with relevant organizations is necessary. Compare activities to have a good tool to measure activity.

Video of hand signals for use educated referees	I made a video about referee signals to education to countries, a big thanks to Danny Sevin for improving the video footage.	I have spoken to Danny Sevin and asked if we can use him to do a professional hand signal video once the pandemic is over, then hopefully a lot of the other weaker countries will then learn from these hand signals, once we distribute them out to their countries.	This is very important for all referees to learn how to apply the correct hand signals as they will then be more clearer to the coaches, fighters and also spectators.
Training & Grading	We are still working on creating the new training and grading system for judges and referees. This has been put on hold slightly so we can concentrate on the Points seminar on 8th July.	We have nearly finished creating the new training and grading system for judges and referees, this has a few more adjustments and it will be ready to go online hopefully by October, with the boards permission.	This will make a big difference in our grading system for referees, at the moment we have referees bringing their credentials to see asking why they are the grade and not a higher grade, it will be more transparent for everyone.
Zoom meetings	The committee have had 2 zoom meetings to build our seminar which is on the 8th July These are a few of the topics we will be taking about with in-depth explanations	Online etiquette, Point Fighting rules. Inspiration: why we love our job in the sport Manipulation in the sport. Fighter rules and regulations. Inspiration: why we love our job in the sport Video analyses (Max 3 seconds) incl. rules Questions and end conclusion	All referees, coaches, officials too will all learn from these new ways of learning. Learning is evolving and new ideas, ways are always being found, so we must move with the times making our seminars and teaching as interesting to everyone same time which in turn helps our tournaments run smoother

IRELAND

CONCUSSION EDUCATION WORKSHOP. online webinar workshop on Saturday 6th June 2020 at 7:00pm.

The focus of this webinar was ‘Concussion Education’ and it was facilitated by Mark Beakey (Co-Founder of Concussion Coach).

The aim of the workshop was to provide participants with the knowledge and confidence to safely manage concussion injuries. A common misconception across amateur sporting environments is that having a sideline medic or someone trained in first aid is a sufficient method for managing concussions. Managing a concussion is a process that can take several weeks and requires specialised knowledge and assistance from all stakeholders. As each person plays a key role in the safe management of a concussion, it is therefore very important that we are educated on how to play our part in the process.

On line seminar on June 16th, around 150 people from 9 countries (Guatemala, USA, Mexico, Venezuela, Ecuador, Argentina, Honduras, El Salvador and Colombia) who joined at the Seminar of Sensei **Juan Pablo Santiago**

A first step towards getting back to normal.

In Rome, at the " Cavaliere Nero ", the course of the Fikbms Coaches and Instructors of Lazio began and that at the beginning of the parity school " Alfred Nobel " with classrooms prepared for the course.

The covid-19 has put our hand on it, forcing school managers at the end of lockdown to change planning and then 'force' FIKBMS Lazio to seek an equally prestige solution and that could be suitable for the course. The answer was important with 30 participants between coaches and instructors. Organized by the FIKBMS Lazio Regional Committee in the figure of 1 Mario Carella and the brothers Massimo and Paolo Liberati, the day proved to be essential to take stock of the situation also thanks to the presence of the federal president Donato Milano who opened , among other things, the works with the lesson dedicated to the " Performance Model ".

The satisfaction of Mario Carella, president FIKBMS Lazio: " A real success and desire for restart, was the concrete answer to this Covid - 19. Not only football but also Kickboxing wants to start again. All you have to do is wish a good luck to all the trainees. W the Sport ".

WAKO Squad 1st ONLINE TRAINING SESSION.... “What a SUCCESS”

In this current climate ALL martial art practitioners have been affected during this COVID 19 pandemic. However there is an old saying... “There is light at the end of the tunnel”.

WAKO GB are focused on supporting ALL martial art athlete’s during this time and recognise that there need to be a focus and support to assist them achieve their potential. This is the reason that WAKO GB was the first to market to hold an “ONLINE GB squad training session” open to ALL...

On Sunday May 3rd WAKO GB held its inaugural WAKO GB ONLINE squad session, of which covered Point Fighting, Light Contact, Kick Light and Full Contact. ALL of the categories were well attended and the feedback from those that took part enjoyed the sessions immensely.

The coaches that contributed towards the content were as follows: Billy Bryce, Sean Veria, Sharon Gill, Tony Aderton, Jacey Cashman, Diane Stuart, Chris Collymore, Karen Bailey, Duane Reid, Leigh Randall, Chris McNeish, Mark Watkins and Dev Barratt.

We obviously also have to thank the guys that worked behind the scenes to make this a great event Linda and Nigel Baxter and Lucy Edwards.

Last but not least thanks to Peter Edwards and Nev Wray for their continued support. WAKO GB will be communicating future ONLINE training sessions to aid and support all of those wishing to compete later this year and all of those who like to experience this unique experience.

TRINIDAD & TOBAGO

WAKO Trinidad and Tobago hosted its' 2nd event for the 2020 the season on March 8th. The 2nd of the qualifiers for the WAKO Panam championships. It was held at their favourite venue the Central Regional Indoor Sport Arena with a 20% increase in competitors from the last event of February 1st

Competition was very keen, with the younger athletes bringing their game to the tournament; the Winters sister Chelsea 13-15 age group and brother Christian 10-12 age group did not disappoint; the Ali brothers Saifullah, Sahir and Samir definitely brought their "A" game. We congratulate all the competitors and coaches for the fantastic performances and thank the Referees and Judges and congratulate the new certified officials for a job well done. We thank all involved for being part of the journey to make WAKO Trinidad and Tobago the success that it is becoming.

⌘ THE SAD NEWS

Croatian coach **Veljko Vetma** left us on June 1st after short and severe illness.

Veljko was the coach of many Croatian and WAKO champions, and his greatest coaching success was achieved by WAKO champion Antonio Plazibat in 2018 when he won the K-1 Grand Prix in Tokyo.

The Croatian Kickboxing Association and WAKO have lost very professional coach and good friends.

Sincere condolences to the family, members of the club and the Croatian kickboxing federation.

THE SAD NEWS

On June 26, 2020, Croatian coach **RUDOLF OLIVA** died at the age of 63 after a long and severe illness.

Mr. Rudolf Oliva was a longtime member of the Croatian Kickboxing Association. He was a long-time national and international referee and coach in the kickboxing clubs "Lav" from Pula and Medulin in Croatia.

Few competitions could take place in the Republic of Croatia and neighbouring countries without Rudolf Oliva being either a referee or a coach of his competitors.

Sincere condolences to the family, members of the club and the Croatian kickboxing federation.

RECOMMENDED FOR ALL COACHES

'COVID Safe Martial Arts Instructor Certification' is a program developed and administered by the **Martial Arts Industry Association - Australia**, as a free service to the martial arts industry.

The program can be accessed here:

<https://www.openlearning.com/courses/covid-safe-martial-arts-school/>

The COVID Safe Martial Arts Instructor Certification course ensures instructors take the appropriate measures when conducting martial arts classes

What You Will Learn

- **Course Outcomes**
Martial arts instructors will understand the fundamentals about the COVID-19 virus. But more importantly, be able to take appropriate measures to conduct martial arts classes in a safe and healthy environment. In this course you will:
 - Understand the basics about the COVID-19 virus, including how it is spread.
 - Know what you can do to protect yourself and others.
 - Tell the difference between myths and facts about COVID-19.

In less than 3 weeks more than 20,000 instructors have successfully completed the certification process
