## Official virtual national federation invitation for 16. 9. 2020

Dear President and General Secretary.

I am delighted to confirm we are going ahead with the development seminars, this is a true testament of the resolve of our sport to restart and continue to evolve and improve our sport. We have now agreed to also host said seminar virtually. This will enable our member federations to gain insight in to the development of our sport and the sharing of best practice. Only one person per federations is permitted to attend, so please ensure you get your general secretary to do the bookings. As per the links below. If more than one person registers from a country for any one session, the registration will be automatically deleted for both ,due to limitations of users.

We have deliberately separated the sessions so you can have different people attend different sessions. **Online registration will close on Sunday 20<sup>th</sup> September**, to enable us to communicate and organise the online sessions. Those present at the venue will get a hands on support and practical examples directly from the presenters, so we are delighted that 21 countries will be attending.

I am delighted to announce to you, that the president of GAISF and of ARISF **Mr Raffaele Chiulli** , will make the opening speech. This is a great honour for WAKO having the president of GAISF and ARISF taking time out to open our event. It shows the growth and relevance of WAKO amongst the Olympic family of sport.

Sharing life lessons and knowledge will not only help shape our sport but our level of success and development will be enhanced and improved, when we learn from each other and collectively develop our sport nationally and international as part of the WAKO family. Many of my biggest personal and professional growth periods came from sitting and listening to the journeys and testimony from others, successful federations , athletes and business leaders, who gave me the opportunity to experiencing their lessons and story's, then realizing that in sharing, absorbing and in accepting this insight, barriers erode, walls come down, growth happens and that brings a new perceptive in life, in sport, in business, empowering each other to be improve and understand better.

Below you have all the relevant information at hand to enable you and your team to register. I hope you are in a position to attend with key members of your team in what will be a growth opportunity for you and your federation, to share and learn amongst friends and experts in various fields.

Respectfully Yours,

Roy Baker,  
President WAKO
