INVITATION LETTER FOR THE WAKO CHILDREN, CADETS & JUNIORS EUROPEAN KICKBOXING CHAMPIONSHIPS 2019 GYŐR HUNGARY

Dear Presidents, Dear Friends,

I take particular pleasure in welcoming you to the 2019 WAKO Children, Cadets & Juniors European Kickboxing Championships, which will take place in a Western Hungarian, sport loving city.

I am confident the Hungarian Kickboxing Federation and its President, Mr. Peter Galambos, will do a great job in hosting this prestigious event in the beautiful Győr. For sure my good friend has the staff and experience to ensure you and your entourage's stay will be one that will bring back fond memories for years to come.

We must take care of our youth, they are our future. It reminds me that Gold medals aren't really made of gold. They're made of sweat, determination, and a hard-to-find product called resilience. Something unfortunately that is diminishing in the world due to the negative impact of social media, it is something our children need to have to function and have coping mechanisms to get them through life. Contact sports uniquely allow youth to develop this ability and capability.

With IOC recognition comes responsibility, we must all encourage our federations and teams to be more professional in what we do and how we do it. We have a very important number of years ahead of us to gain full recognition, that will only happen if we all in WAKO Europe continue to evolve and work together for the betterment of our sport.

This is key, Team Work, the entire WAKO Family working together on all five continents, helping each other grow and a transparent, democratic and aligned way. We are all accountable and responsible as leaders in our field to ensure we always put the athlete and our sport first.

Optimism is part of my strategy for making a better future for our sport. Because unless we believe that the future can be better, we are unlikely to step up and take responsibility for making it so, this is our job as leaders of Kickboxing in the world.

I look forward to seeing you, your athletes and your entourage at the Championships. We must always remember, Win with integrity, loose with dignity.

Respectfully Yours,

Roy BAKER

President of WAKO

President of WAKO Europe

INVITATION LETTER FOR THE WAKO CHILDREN, CADETS & JUNIORS EUROPEAN KICKBOXING CHAMPIONSHIPS 2019 GYŐR HUNGARY

Dear Friends in WAKO,

After having organized the senior World Cup in 2017, Hungary is now preparing to host the best young European athletes, namely, those of children, cadets and juniors age divisions.

The venue of the WAKO Children, Cadets & Juniors European Kickboxing Championships will be Győr, a constantly developing beautiful city in Western Hungary, located within the triangle of three capitals: Vienna, Budapest and Bratislava. The young athletes will use brand new, up-to-date, full service facilities.

The Hungarian Kickboxing Federation was happy to apply for organizing the European Championships as we consider youth training especially important. We think that WAKO's future lies in the hands of the young girls and boys competing, so we have to give them everything they need to be able to get better and someday move to the forefront.

We believe that by organizing a successful European Championships, Hungary can contribute to achieving our common objective, the development of our young athletes.

We await each WAKO member state to come to Győr in August and we promise this event will remain unforgettable for a long time for all participants.

THE HOST CITY,
GYŐR

HOST CITY, GYŐR

Győr is the sixth largest city in Hungary, with just under 130,000 inhabitants. Its excellent geographical location, advanced industry, and highly qualified workforce make it one of the most dynamically developing innovative cities of the country. The so-called Golden Triangle of Vienna, Budapest and Bratislava, the airport in Pécs, the international river harbour in Gönyű, the international railroad connections, as well as the M1 highway have helped Győr to become one of the most important economic and industrial centres in Hungary.

Situated near the confluence of no fewer than four rivers, Győr is truly “a city of rivers.” Its atmosphere is dominated by the Moson Danube meandering through the city, as well as its erstwhile eponymous Rába (Raab). One may as well go punting or on a boat trip to discover the architectural monuments of Győr, but walking through the inner city allows one to roam amidst mansions from historic periods, characteristic corner balconies, and statues. It is worth visiting the basilica, founded almost a millennium ago, where one can behold one of Hungary’s national relics, the Herma of St Ladislaus. The tower of the Bishop’s Palace opens a panoramic perspective on the city, with the view extending as far as Pannonhalma, some 20 kilometres from Győr, where the Benedictine Arch-abbey is located – one of Hungary’s 8 UNESCO World Heritage sites.

A CITY OF ENDLESS EXPERIENCES

GYŐR

SIGHTS

RECOMMENDED
SIGHTSEEING ROUTE

1 | CITY HALL, BAROSS STREET

CITY HALL: A true emblem of the town of Győr, this eclectic building was inaugurated in 1900. On its facade we see a coat of arms donated by Maria Theresa. From its 59-metre tower a popular folk tune from the Small Plain region is heard in every hour, while at 11am and 5pm it plays a two-minute musical composition.

FOUNTAIN: It symbolises the town of rivers, where the Mosoni Danube, Rába and Rábca rivers meet. On various occasions throughout the day, the fountain plays a tune, while at night we can marvel at its illuminated glory.

BAROSS ÚT: Always buzzing with life, at the entrance of the town's shopping street visitors are welcomed by the statue of Gábor Baross, Hungary's former minister of transport. A few steps away, a row of red bricks reminds us to the former Fehérvár Gate, the explosion of which in 1598 marked the beginning of the town's reconquest from the four-year Ottoman occupation. On the opposite side, a memorial plaque prompts us to remember the former iconic fire tower (1792–1894), which served as the inspiration for the design of the City Hall's main tower. In the middle of the road, a statue dubbed by the locals as the "Boatman" reminds us to the last devastating flood (1954).

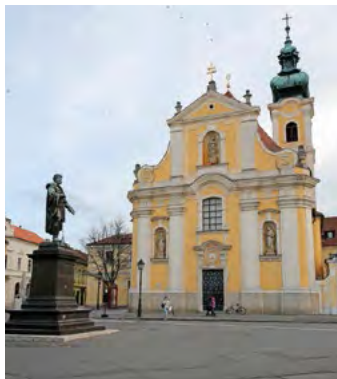

Interesting note: The street was renovated in 1997, a project backed by a number of local businesses and private individuals. A bench is dedicated to each of them for their financial support. Let's take a closer look at the name plates!

WWW.HELLOGYOR.HU

Take a left at the statue of Saint George the Dragon Slayer, and continue our stroll down Kazinczy street.

2 | BÉCSI KAPU SQUARE

The square was once home to one of the town gates, the Vienna Gate.

CARMELITE CHURCH:

Completed in 1725, one of the peculiarities of the Carmelite church and monastery is a Baroque St. Mary statue located in one of the small chambers. We can also admire the church's beautiful Baroque interior and the black chapel, built on the model of the Loreto chapel.

SCULPTURE OF KISFALUDY: The sculpture of the famous writer has attracted a number of local legends. If we are not careful enough and park in the red zone, he jots down the number plate, while students who are late from school are not safe from his notebook either.

CASTLE, CANNONS: The Castle in its current shape and form originates from the 16th and 17th centuries. One of its peculiarities is the "Füles bástya" (New Bastion), which proved as a handy instrument while defending the castle from the Turks.

RADÓ ISLAND: Located in between the two arms of the river Rába, the island is a popular rest area among locals and home to the country's oldest boathouse.

SYNAGOGUE: Today, one of Hungary's largest Neolog synagogues (1870) is a concert and event hall that houses the private collection of János Vasilescu Sr., showcasing the visual art of the 20th-century Hungary.

A DETOUR TO KIRÁLY STREET: The building under number 4 was named after a famous guest, Napoleon. The emperor "left" a keepsake after the battle of 1809; vigilant bystanders can find a cannon ball he had thrown to the opposite side of the street.

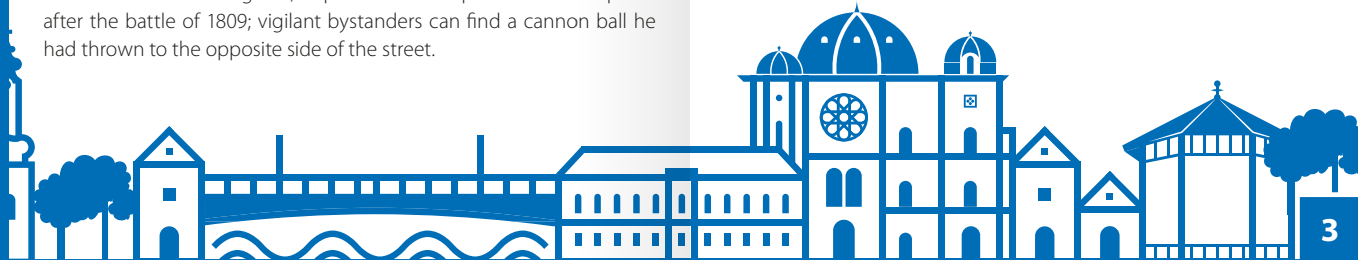

3 | CHAPTER HILL

STONE OF THE VIRGIN MARY: This work of art completed in 2000 by Tibor Szervátiusz is dedicated to the millennial anniversary of the founding of the Hungarian state. Its main scene depicts St. Stephen as he offers our nation to the Virgin Mary. On the two sides we see the legend of the "Miraculous Deer" (Csodaszarvas) coming to life.

CATHEDRAL: Built in Roman style in the 11th century, the Cathedral is the single most symbolic church within the Diocese of Győr, established by St. Stephen. The current appearance of its interior was shaped by Baroque architecture in the 1780s. Since Pope John Paul II's visit in 1996, the Cathedral has held basilica minor rank, while its importance is underlined by three important relics. Its northern aisle features the Weeping Madonna painting, which was rescued from Ireland in 1655. On 17 March 1697, on St. Patrick's Day, the painting wept blood. On the other side, the Gothic chapel built to the aisle in the 15th century guards one of the nation's most significant relics. The herm of St. Ladislaus, a bust decorated with gold and gemstones, conceals the knight-king's skull. In this chapel we also find the tomb of the martyr Blessed Bishop Vilmos Apor.

OLD CHURCH FROM THE EARLY-ÁRPÁD DYNASTY: These 10th-century ruins are the foundations of the old church from the early-Árpád dynasty. Next to it we see the statue of St. Michael archangel as he triumphantly thrusts Lucifer, the epitome of evil, from the Heavens to the underworld.

After a quick stop at Sarkantyús lane, we take a left to continue our walk towards Chapter Hill.

Inside Győr's most historic part enter the Cathedral and take a stroll around the building. After a visit to the Bishop's Castle, we can spend time to visit the other exhibitions on Chapter Hill.

STATUE OF ST. LADISLAUS: A bronze statue behind the Cathedral also honours our knight-king, St. Ladislaus. The inscription reads: "A head taller than everyone else."

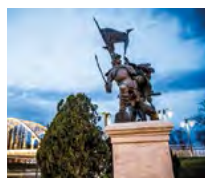

BISHOP'S CASTLE: Situated at the heart of Győr's inner city, the Bishop's Castle and its buildings are the centre of the Diocese of Győr, established by our king Stephen I. Built in the 13th century, the tower offers a magnificent panorama, while in its cellar we can visit a contemporary exhibition presenting the local events of World War II and commemorating the life of Blessed Vilmos Apor, who suffered a martyr's death in that very place.

THEOLOGICAL COLLEGE OF GYŐR: The Neoclassical building that many believe to be a castle is home to the Theological College and Seminary of Győr.

4 | DUNAKAPU SQUARE

Besides Széchenyi square, the town's renewed event square is home to Győr's largest festivals. Below the square, on the -1st level of the underground parking garage we can look at the remnants of the former castle wall.

SCHWARZENBERG-PÁLFY STATUE: Situated at the foot of Kossuth Bridge, the statue was erected on the 400th anniversary of the town's reconquest from the Ottoman occupation.

PULSE SCULPTURE: Along the Mosoni Danube, we see Győr's most recent sculpture, which presents us the entire city panorama as we turn it around 360 degrees.

SCULPTURE OF THE IRON ROOSTER: During the castle's reconquest, the Hungarians were aided by a prophecy saying when the iron rooster, erected by the Turks as a weathervane, decides to crow and the half moon beneath it will turn into a full moon, granting the castle once again to the Hungarian army. The fulfilment of the prophecy was greatly helped by a trumpeting shoemaker's apprentice, who had climbed over the castle walls during the night to wait for dawn to break.

Let's follow the former castle walls towards Dunakapu square.

After testing our strength by turning around the Pulse sculpture, let's take a turn once again towards the inner city through Jedlik street.

5 | GUTENBERG SQUARE

KRESZTA HOUSE: This 17th-century heritage building is home to the collection of Győr-born ceramic artist Margit Kovács.

SODA-WATER SIPHON: It is not by chance that we find a giant soda-water siphon in Győr's town centre. Ányos Jedlik, former teacher at the Benedictine school, priest and inventor, also patented the industrial production of carbonated water. And why is Győr renowned as the city of "fröccs" (spritzer)? During a grape harvest in Fót, Jedlik sought to quench his companions' thirst with a mixture of white wine and carbonated water produced with the help of his soda siphon. The drink became to be known as spritzer, in Hungarian "fröccs".

ARK OF THE COVENANT: The town's most dazzling sculpture tells an exciting story. In 1729, a soldier accused of bigamy found refuge in a former Jesuit monastery. His pursuers imposed a blockade on the building. Taking advantage of the procession of the Holy Sacrament, the fugitive attempted to escape dressed as an altar boy, but was easily recognised. During the manhunt, the Holy Sacrament was knocked from the high priest's hands, which fell to the ground shattering into a million little pieces. Two years later, at the emperor's order a beautiful sculpture was erected from the soldiers' pay.

GOLDEN SHIP TRADE SIGN: Work of art made by local goldsmith Bandi Schima, whose letter – according to legend – is still preserved in the ship hull.

6 | SZÉCHENYI SQUARE

Győr's compelling Baroque main square with a water feature in the summer months, is the centre of the city's life and events.

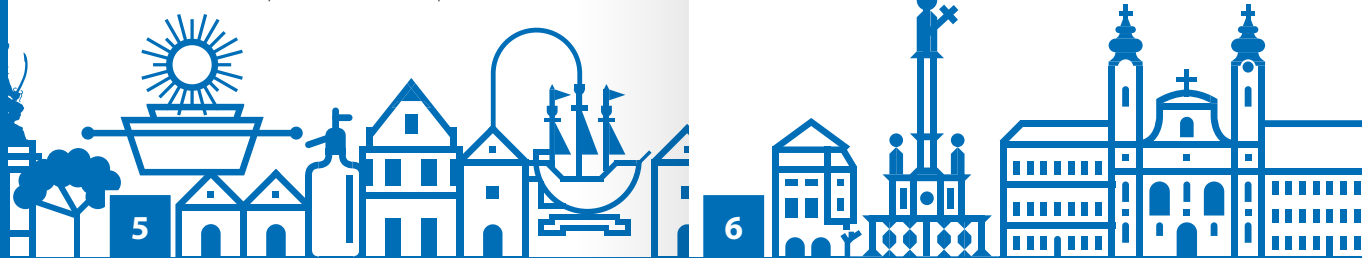

ESTERHÁZY PALACE (Király u. 17): The building is currently functioning as the principal location of Flóris Rómer Art and History Museum and it houses the permanent exhibition of the Dr. Béla Radnai collection. Featured on the balcony above the gate, we can see the original owner's initials, C(omes) G(abriel) E(sterházy).

"IRON STOCK HOUSE" (Széchenyi tér 4): Legend has it that the building was named after the old trade sign under the corner-balcony, the "iron stock", which was covered in nails that journeymen had knocked into it when they came to Győr.

LORD ABBOT'S HOUSE (Széchenyi tér 5): It was built by the archabbot of Pannonhalma in 1741–1742. This splendid Baroque palace is home to the exhibition on local history.

OLD CITY HALL (Rákóczi u. 1.): In 1848, Lajos Kossuth delivered a recruiting speech to the people of Győr from its forged-iron balcony.

COLUMN OF ST. MARY: The monument at the centre of the square was erected by local bishop Lipót Kollonich, in 1686, to commemorate the town's reconquest from Turkish occupation.

Continuing straight on Jedlik street we soon reach Széchenyi square, Győr's central square.

Taking a left at the pharmacy museum on Czuczor street, we soon find ourselves at the Theatre on II. János Pál square.

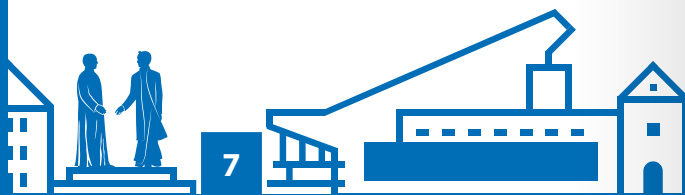

BENEDICTINE BUILDINGS: Church, monastery, school were built by Jesuits in the 17th century. Still in its original function, the Baroque-style pharmacy museum also features a local invention, the gastric stapler.

STATUE OF ÁNYOS JEDLIK AND GERGELY CZUCZOR: Two distinguished former teachers of the Benedictine school, inventor and physicist Jedlik and literary man Czuczor were cousins and also close friends.

7 | NATIONAL THEATRE OF GYŐR

Inaugurated in 1978, the building's southern and northern facades feature works of op art by Victor Vasarely. Inside the theatre we find large paintings on porcelain by Endre Szász. Awaiting avid theatre-goers with a colourful range of programmes, the National Theatre of Győr is also home of the Ballet of Győr.

- Nurses: one nurse was present at each of the 7 tatamis and at each of the 3 rings (10 nurses in total).
- Paramedics: 2 local paramedic teams, each of 2 paramedics.

All local doctors and paramedics were trained for Basic Life Support with use of Automated External Defibrillator (AED) and dr. Gogl was trained in Advanced Cardiac Life Support (ACLS). Two ambulances were constantly present during the competition; if one ambulance had to move to the hospital, it waited until the arrival of a new one.

The following medical equipment was on site, ready to be used:

- 4 Medic tables, clearly visible for athletes, officials and audience;
- 2 Medic life support bags;
- 2 Customized medic bags;
- 3 Ice-machines with plastic ice containers;
- Instant cold packs and cooling sprays;
- 1 AED and 2 manual external defibrillators;
- 1 Fully equipped examination room;
- 1 Fully equipped anti-doping room;
- Every tatami and ring was equipped with gloves for referees, disinfectant solution and paper towel according to the WAKO Medical Regulations.

All members of the medical team used distinguished clothing with the specification of their function according to the WAKO Medical Regulations.

Before the first day of registration, weigh-in and medical check, a medical briefing was held between the WAKO Medical Supervisor and CMO for a more precise planning of the 2 days of medical checks and to control that all locals and WAKO regulation on medical matters were enforced. In particular, emergency, evacuation and communication procedures were discussed.

Medical checks before the championships

During the 2 days of medical checks (August 23 and 24), just 2 tatami athletes were disqualified due, in both cases, to a recent ankle distortion.

During the championships

Before the opening of the competitions (August 26) and, then, every day, members of the Local Medical Team took part in a detailed briefing. Equipment and important locations (external defibrillators, escape routes and medical tables) were checked once again. The emergency, evacuation and communication procedures were confirmed. Thereafter one nurse was seated close to each tatami, one doctor took place at dedicated medical tables. In addition, 2 doctors and 2 nurses were responsible only for the ring-sport disciplines. Paramedic teams seated in 2 different locations, well visible to athletes, officials and audience. During the tournament, the nurses were first in scene. If necessary, the local doctors were asked for help. Any decision regarding possible hospitalization of athletes was discussed at least by 2 doctors of the Local Medical Team. The CMO had a supervising and consultative function.

Only for ring competitors, the local doctor checked the winner of each match immediately after the fight. In case of any physical problem, the doctor decided to have the athlete checked again in the day of his/her next fight for a “fit/unfit to fight” decision. No athlete had to be re-checked in the day of the new fight.

The list of Athletes who were suspended for medical reasons was immediately communicated to WAKO Organizing Committee, in order to stop them from other kickboxing disciplines during the championships.

Every contact with a medical team member was documented in a “medical event” form. If the doctors decided to send a patient to the hospital, the Emergency Department of the Petz Aladár County Teaching Hospital was informed by phone. In this case, each patient got a short medical emergency report with diagnosis, history examination and treatment. If the patient (or the guardian) denied the advice of hospitalization of the doctor, he/she had to declare and sign a document attesting his/her decision against medical advice.

In any case of head concussion, a “Head Injury Card” was given to the athlete, reporting the clinical characteristics of the concussion, the investigations requested by the local doctor, treatment and suspension period.

Medical statistics

Overall, 107 injuries were recorded during the EC championships (1196 tatami and 430 ring fights) and **54 requested further evaluation in the Emergency Department of the Petz Aladár County Teaching Hospital**. The **overall injury rate was 6.6 injuries per 100 fights** and the overall rate of **injuries requiring hospitalization was 3.3 injuries per 100 fights**. Taking into account tatami competitions, the injury rate was 6.2 per 100 fights and the hospitalization rate was 2.9 per 100 fights. The same rates for ring disciplines were 7.7 and 4.4 per 100 fights, respectively. No statistically significant differences were encountered comparing these rates between tatami and ring competitions.

Taking into account the **different age groups** of the competitors, regarding *tatami*:

- **Children category**: there was just one injury recorded (a young lady competing in PF), not requiring, however, hospitalization (abdominal trauma). In this age category, the injury rate was 2.7 per 100 fights;
- **Younger Cadets**: just one injury was recorded in a male athlete (PF), with no need of hospitalization (injury rate 0.8 per 100 fights);
- **Older Cadets**: 38 injuries were recorded (injury rate 5.7 per 100 fights), requiring hospitalization in 18 cases (2.7 per 100 fights);
- **Juniors**: 33 injuries were recorded (injury rate 7.2 per 100 fights), requiring hospital evaluation in 17 cases (3.7 per 100 fights).

Taking into account the *ring* competitions:

- **Younger Juniors**: 11 injuries were recorded (injury rate 5.9 per 100 fights), requiring hospitalization in 7 (3.7 per 100 fights);
- **Older Juniors**: 23 injuries were recorded (injury rate 9.4 per 100 fights), requiring hospitalization in 12 (4.9 per 100 fights).

As far as the **different kickboxing disciplines**, we recorded the following injuries and injury rates:

- **Point fighting**: 31 injuries (5.9 per 100 fights), requiring hospitalization in 18 cases (3.4 per 100 fights);
- **Light contact**: 35 injuries (7.7 per 100 fights), requiring hospitalization in 14 cases (3.1 per 100 fights);
- **Kick Light**: 7 injuries (2.3 per 100 fights), requiring hospitalization in 3 cases (1.0 per 100 fights);
- **Full Contact**: 8 injuries (9.6 per 100 fights), requiring hospitalization in 3 cases (3.6 per 100 fights);
- **Low Kick**: 10 injuries (5.2 per 100 fights), requiring hospitalization in 8 cases (4.1 per 100 fights);
- **K1**: 16 injuries (10.3 per 100 fights), requiring hospitalization in 8 cases (5.2 per 100 fights).

Kind of injuries

Regarding the 54 competitors in whom hospitalization was requested by the Local Medical Team, **one athlete** from Israel who lost his fight by KO due to body punch/kick **refused hospitalization against medical advice**.

A detailed registration and analysis of all medical cases is listed in the appendix.

A total of **16 athletes were suspended** because of medical reasons, according actual WAKO Medical Regulations. WAKO Europe will inform National Federations of each suspended athlete on the suspension period. After the suspension period, a medical clearance for each athlete must be provided and communicated to the WAKO Medical and Anti-Doping Committee by their National Kickboxing Federations in order to allow these athletes to participate in other WAKO competitions.

Anti-doping controls

In the second day of medical checks (August 24) 5 doping controls were done and 5 athletes were randomly selected

Conclusions

From the perspective of the Medical Committee, the local medical organization and support was excellent and respected the current WAKO Medical Regulations. All Local Medical Team members and paramedics showed great availability, sometimes covering extra time of work in respect to what anticipated. The CMO, dr. Balogh and dr. Gogl gave all the support the athletes, officials and WAKO Medical Supervisor needed.

Looking at the medical statistics, even if ring disciplines showed higher rates of injuries and hospitalization, no statistical significant differences in these rates were encountered comparing tatami and ring competitions. *Among tatami disciplines, the highest injury and hospitalization rates were observed in Kick Light (7.7 per 100 fights) and Point Fighting (3.4 per 100 fights), respectively.* The highest same rates in ring disciplines were both observed in K1 (*injury rate 10.3 per 100 fights, hospitalization rate 5.2 per 100 fights*). Taking into account the different age groups, an increasing trend of injury and hospitalization rates were observed with increasing age of the competitors. This can be at least partly explained by the fact that only “older” athletes (Younger and Older Juniors) were allowed to participate in ring disciplines.

Finally, *a relatively high number of head concussions* must be highlighted, requiring hospitalization in 16 athletes (0.98 per 100 fights) competing, both in tatami (11 cases) and ring (5 cases). When the concussion rate was analyzed, not statistically significant difference was encountered comparing ring (1.2 per 100 fights) and tatami (0.9 per 100 fights). In the Sports Medicine Literature is well known that Young athletes, as those enrolled in these Children, Cadets and Juniors European Championships, are at higher risk of more severe complications after head traumas and they need longer time to recover, in respect to adults. For this reason, I suggest a strict surveillance in order to try to lower these figures and rates in both tatami and ring disciplines, at least in these age groups. Moreover, looking at the relatively high rate of injury and hospitalization observed in Light Contact, Full Contact

and K1 in cadets and juniors, I suggest to search for additional preventive measures to be adopted at different levels (technical rules, protective materials, refereeing, etc.).
